FOR IMMEDIATE RELEASE

STATE ROUTE 138 (EAST) REALIGNMENT PROJECT

SAN BERNARDINO – The California Department of Transportation (Caltrans) continues work on the \$23 million State Route 138 (SR-138) East Realignment Project. The project is located on SR-138 just east of Interstate 15 to Summit Post Office Road. The realignment will remove several curves and steep grades reducing the three-mile stretch by one mile. The project also includes constructing outside shoulders, three bridges, and three wildlife crossings. SR-138 will remain a two-lane road with one lane in each direction.

Construction crews are currently working on grading, drainage and landscaping. In early June, crews will be gearing up for pavement work requiring a short term traffic detour (additional details will follow). In late June, crews will be shifting focus back to grading operations for pavement realignment work. To date construction work is 45% complete. The project is on schedule and within budget.

Please use the link below to see construction work in action, as well as additional project photos.
